Cooper WMA located in Harper County, Oklahoma

### **Mandatory Pre-Bid Meeting Requirement-**

An onsite mandatory pre-bid meeting will be required for this project.

Date: March 28, 2023

Time: 11:30am

Location: 3014 Lakeview Drive Woodward, OK 73801

### **GENERAL REQUIREMENTS**

The proposed contract is selective removal of eastern red cedar through mastication or mechanical cutting and stacking to reduce volatile fuel loads and improve wildlife habitat on 117 acres located on the Cooper Wildlife Management Area in Harper County. See attached maps for the project area.

Cut and stack Eastern Red Cedars- Cut and stack all cedar trees within a 75 ft. radius out from designated, marked save trees. Save trees are not to be damaged during the cedar removal process. All designated save trees will be clearly marked with flagging or paint. Cedars must be cut at ground level and no green branches can remain on the tree stump. Cedars must be stacked in piles containing a minimum of 10 trees. There are approximately 80 designated save trees in this project.

Mastication is permitted in the place of cutting and stacking as long as masticated material is evenly distributed and does not average more than 6 inches in depth on the ground. Save trees are not to be damaged during the cedar removal process.

Cutting of Eastern Red Cedar- All eastern red cedar trees not located within a 75 ft. radius of designated marked save trees can be cut and left where they fall. All visible cedar trees in the project area are to be cut. Cedar trees must be cut at ground level and no green branches can remain on the tree stump.

Hand cutting of Eastern Red Cedar- Hand cutting of cedar trees may be required around designated save trees to prevent machinery damage to the save tree. Hand cutting may also be required in wet areas or in areas with steep or sandy terrain that prevent machinery access.

### Minimum Equipment Requirements-

All cutting and mulching equipment must have a minimum of 100 horsepower. All equipment used must be low ground pressure, and equipped with rubber tracks, or rubber tires.

Vendor is to provide all needed equipment to complete the work as required. All work will be done as directed by the ODWC Area Biologist.

A contract will not be issued without the required proof on insurance.

**Basis of Contract:** The determination of the Lowest Responsive Bidder will be made based on the lowest extended price (per acre rate x 117 acres = Total project bid).

ODWC reserves the right to make any inquires to insure that the lowest bidder is actually able to complete the work in a satisfactory manner.

The contract will be issued by the Office of Management and Enterprise Services, Construction and Properties Division (OMES/CAP). The Contractor shall not begin work until the contract is in place and written notice to proceed has been issued by OMES/CAP.
