

Oklahoma Department of Wildlife Conservation - Administration - Accounting

DATE OF SOLICITATION made as of the **26th** day of **May** in the year **2026**.

Solicitation Information:

Solicitation Number: **039S**

Project Name: Choctaw Ten Acre Lake
Fishing Access Project
Location: 35.483403, -97.254585
City of Choctaw, Oklahoma

Using Agency Information:

Using Agency Name: **Oklahoma Department of Wildlife Conservation**

Point of Contact: **Susan Mecham**

Mailing Address: **PO Box 53465**
City, ST Zip: **Oklahoma City, Oklahoma 73152**

Delivery Address: **1801 North Lincoln Boulevard**
City, ST Zip: **Oklahoma City, Oklahoma 73105**

Phone: **405-522-6137**

Email: **susan.mecham@odwc.ok.gov**

Bids Due: **Friday, JULY 17th, 2026 at 3:00 PM CST.**

The **Oklahoma Department of Wildlife Conservation** is inviting written bids for all Project Management, Superintendence, labor, machinery, equipment, tools, materials, supplies and appurtenances described by this solicitation.

Method of Responding to this Solicitation: Bids will be accepted by mail, email or hand delivered to the Using Agency Contact specified above.

The requirements of the proposed contract for construction are described within this Solicitation, and the Solicitation will become a part of any resultant Contract. Bidder will perform work in compliance with all applicable codes, standards, ordinances and laws. The issuance of this Solicitation does not guarantee that the State of Oklahoma will enter into an agreement, and the State reserves the right to reject any and all bids.

In preparing a bid, please review the attached documents and comply with instructions given:

- Bid Form: Sign, date and return Bid Form provided in Solicitation Package.
- Scope of Work (SOW): Description, Requirements and Agreement of the Work Needed to Complete the Project.
- Registered as a Supplier to do Business with the State of Oklahoma. [Supplier Portal \(oklahoma.gov\)](http://oklahoma.gov)
- Supplier Insurance: General Liability Insurance and Workers Compensation or Exemption.
- Comply with the Federal Purchasing Requirement "Build America Buy America" (BABA) when applicable.

If the Bidder has any questions about this Solicitation, please contact the Using Agency Contact listed above.

This Solicitation and any resulting Contract for Construction is in accordance with 61 O.S. §101- 138, and specifically 61 O.S. §103(B) regarding projects under the statutory amount mandated therein. Any resultant contract will be awarded by the State of Oklahoma, Office of Management and Enterprise Services, Division of Capital Assets Management, Department of Real Estate Services, Construction and Properties (Owner Agent for State).

Oklahoma Department of Wildlife Conservation

 (List Addendum Number(s) received above)

ARTICLE 1: General.

1.1 The undersigned, being familiar with the local conditions affecting the cost of the work, with the Solicitation for Bids and in accordance with the provisions thereof, hereby proposes to furnish all labor, materials and equipment necessary for the sums listed herein.

1.2 In submitting the bid, it is understood that the right is reserved by the State of Oklahoma to reject any and all bids, and it is agreed that this bid may not be withdrawn for a period of thirty (30) days after the date bids are due. Work is to start within ten (10) days after receipt of Notice to Proceed.

1.3 If awarded the project:

(Indicate applicable response and fill in days below)

We propose to complete this work within _____ calendar days from the date of receipt of the Notice to Proceed.

ARTICLE 2: Compliance.

2.1 The Bidder certifies that:

2.1.1 they are an Equal Employment Opportunity Employer and that they do not discriminate in any of their business or employment practices;

2.1.2 they, and all sub-contractors and suppliers performing work on the Project, will comply with the provisions of the Oklahoma Taxpayer and Citizen Protection Act of 2007 and participate in the Status Verification System. The Status Verification System is defined in the Oklahoma Statutes, Title 25 §1312;

2.1.3 they will comply with the laws relating to public construction in the Oklahoma Statutes (Title 61) and the Oklahoma Administrative Code (Section 260, Chapter 65); and

2.1.4 they will comply with all State of Oklahoma Governor's Executive Orders, including those relating to the prohibited use of any and all tobacco product on any and all properties owned, leased or contracted for use by the State of Oklahoma, including but not limited to all buildings, land and vehicles owned, leased or contracted for use by agencies or instrumentalities of the State of Oklahoma.

ARTICLE 3: Bid Proposal:

Fill out the requested rates and apply that rate to the estimated quantities to establish a comparative basis for contract award. The quantities are estimates only and may not reflect actual contract usage. The State will only assign work based upon need and makes no warranty or guarantee as to any minimum amount that may be authorized under the contract.

Category	Rate		Bid as Total Costs (Rate x Qty.)
Choctaw Ten Acre Lake Fishing Access Project 8ft x 20ft T-shaped Dock	Per Total Cost		\$
Design, manufacture, delivery & installation Dock & Gangway			

Total estimate of contract cost and basis of award:\$

(Insert amount using numbers)

ARTICLE 4: Alternate(s):

Alternate No. 1: N/A

_____ Dollars
(Insert amount using words)

\$ _____ Circle one: ADD DEDUCT
(Insert amount using numbers)

ARTICLE 5: Statements.

3.1 Non-collusion Statement. For the purposes of a competitive bid for a public construction contract, the undersigned, being first duly sworn, certifies that

3.1.1 I am the duly authorized agent of _____, the bidder submitting the competitive bid which is attached to this statement, for the purpose of certifying the facts pertaining to the existence of collusion among bidders and between bidders and state officials or employees, as well as facts pertaining to the giving or offering of things of value to government personnel in return for special consideration in the letting of any contract pursuant to the bid to which this statement is attached;

3.1.2 I am fully aware of the facts and circumstances surrounding the making of the bid to which this statement is attached and have been personally and directly involved in the proceedings leading to the submission of such bid; and

- 3.1.3** Neither the bidder nor anyone subject to the bidder's direction or control has been a party:
- a. to any collusion among bidders in restraint of freedom of competition by agreement to bid at a fixed price or to refrain from bidding,
 - b. to any collusion with any state official or employee as to quantity, quality or price in the prospective contract, or as to any other terms of such prospective contract, nor
 - c. in any discussions between bidders and any state official concerning exchange of money or other thing of value for special consideration in the letting of a contract.

3.2 I certify, if awarded the contract, whether competitively bid or not, neither the contractor nor anyone subject to the contractor's direction or control has paid, given or donated or agreed to pay, give or donate to any officer or employee of the State of Oklahoma any money or other thing of value, either directly or indirectly, in procuring the contract to which this statement is attached

3.3 Business Relationship Statement.

3.3.1 I further certify that the nature of any partnership, joint venture or other business relationships presently in effect or which existed within one (1) year prior to the date of this statement with the Architect, Engineer, or other party of the project is:

(If none, so state; use additional sheet if necessary.)

3.3.2 That any such business relationship presently in effect or which existed within one (1) year prior to the date of this statement

(If none, so state; use additional sheet if necessary.)

between any officer or director of the bidding company and any officer or director of the architectural or engineering firm or other party to the project is:

3.3.3 And that the names of all persons having any such business relationships and the positions they hold with their respective companies or firms are:

(If none of the business relationships herein above mentioned exist, then a statement to that effect. Use additional sheet if necessary.)

BIDDER:

If awarded a contract, the bidder affirms that the work will be carried out in conformance with the contract requirements and that all invoices submitted for payment will reflect a true and accurate accounting of the work completed.

I solemnly swear or affirm, under penalty of perjury, that the foregoing is true and correct.

(Bidder Signature)

(Bidder Printed Name)

(Bidder Printed Title)

(Date)

A Scope of Work: Ten Acre Lake Fishing Dock (T-Shaped)

Design, manufacture, delivery, and install a 8ft x 20ft T-shaped Fishing Dock with a 40ft x 4ft gangway on the dam of Ten Acre Lake, per the General Requirements outlined below.

As required by Section 70914 of the infrastructure Investment and Jobs Act (BABA - Buy America Build America Act. Pub. L. 117-58) the successful Contractor must sign and return Attachment A (BABA) with their Bid certifying that they are compliant with all Buy America Requirements.

Location Information

- **Waterbody:** Ten Acre Lake
- **Site Name:** Ten Acre Lake Choctaw, OK
- **County:** Oklahoma
- **Coordinates:** 35.483494, -97.254589 (see Attachment A-1)
- **Water Elevations:**
 - Normal Pool Elevation: 1,133 ft
 - Design Low Water (DLW): 1,130 ft
 - Design High Water (DHW): 1,136 ft
- **Substrate Type (USDA Web Soil Survey):**
 - Fine Sandy Loam: 0 To 9 Inches, Sandy Clay Loam: 9 To 70 Inches, Fine Sandy Loam: 70 To 801nches

General Requirements

I. Design

- The floating dock system specified above shall be designed to:
 - Accommodate water level fluctuations between the Design Low Water (DLW) and Design High Water (DHW) elevations provided above
 - Provide safe and accessible access for individuals with disabilities in accordance with American with Disabilities Act (ADA) and Architectural Barriers Act (ABA) standards
 - Include ADA-compliant handrails, non-slip surfaces, and a transitional plate with a 2-inch vertical edge protection between the gangway and the abutment
 - Withstand the vertical, horizontal, and torsional loads as specified in the Design Specifications section below
 - Provide support structures to prevent the floating dock system from grounding during low water elevations and dry periods
 - At least 25% of the rails must be 34 inches or less in height above the deck of the floating dock
 - Use flotation with a minimum guaranteed life expectancy of ten (10) years against defects, cracking, peeling, sloughing, and deterioration from ultraviolet rays
 - Use flotation impervious to petrochemicals and shall be of fire-resistant construction, while retaining its resiliency against ice and impacts by watercraft
 - Include connecting points capable of being disconnected and moved if necessary
 - Meet all local, state, and federal safety standards for floating dock systems
- Anchorage must allow floating dock system to be usable at all water elevations between the DLW & DHW
- Design modifications to the floating dock system specified above will be accepted if the modifications meet or exceed the standards listed in General Requirements - Sections VI & VII
- Bids must include design drawings of the floating dock system, anchorage, and dock abutment along with materials lists for the floating dock system and anchorage

II. Materials

- All aluminum, iron, steel, manufactured products, and construction materials must comply with domestic content procurement preference requirements established in the Build America, Buy America Act (BABA) at Section 70911 et seq.
- Marine Grade 6061 or 6063 Aluminum alloys will be accepted has a substitution for hot-dipped galvanized steel
- All fasteners shall be stainless steel or hot-dipped galvanized steel

III. Fabrication

- Welding shall be performed by certified welders in accordance with the standards listed in General Requirements - Section IV
- All holes shall be deburred and treated with an approved cold-galvanizing spray
- Field welds shall be limited and shall be indicated clearly on engineering drawings and treated with an approved cold-galvanizing spray

IV. Experience

- Bidder shall provide a list of at least two (2) projects of similar size and scope to the project being bid that have been completed within the past five (5) years
 - Contact information and photos are required for each reference project listed
- Bidder and/or manufacturer sub-contractor shall a minimum of three (3) years of experience in the design, fabrication, and installation of floating dock systems

V. Warranty

- The manufacturer shall warrant all materials and workmanship for a period of one (1) year from the date of final acceptance by ODWC

VI. Standards

- American Society of Civil Engineers (ASCE) manual 7-05, Minimum Design Loads for Buildings and Other Structures
- American Institute of Steel Construction (AISC) Manual of Steel Construction
- American Society for Testing and Materials (ASTM)
- American Welding Society (AWS) Standard Code for Arc and Gas Welding in Building Construction
- Americans with Disabilities Act (ADA) Standards - Chapter 10: Fishing Piers and Platforms published by the U.S. Access Board
- Architectural Barriers Act (ABA) Standards
- ASEC Manual and Reports on Engineering Practice No. 50 Planning and Design Guidelines for Small Craft Harbors Prepared by Task Committee on Marinas, 2000
- American Iron and Steel Institute (AISI) Specification for the Design of Cold-Formed Steel Structural Members
- Association of Rotational Molders (ARM), The Introductory Guide to Designing Rotationally Molded Parts

VII. Vertical Loads, Horizontal Loads, & Torsional Resistance

- Dead loads shall consist of the entire weight of the floating structure, including railings, gangways, anchor sleeves, rub rails, and other accessories and appurtenances
- The deck surface and structural frame live load shall be equal to 50 PSF applied to the full surface area of the deck
- Substructure designed to support full live load across a 30-foot span, calculated to the maximum wave, crest to crest, on most inland lakes
- The anchorage system shall be designed to resist the specified loads at the Design High Water (DHW) elevation
- Gangways and ramps shall be designed to support 50 PSF live load and full deck load

- Connections between gangway and dock shall safely resist loads from docked boats, wave action or wind up to #12 on the Beaufort Scale without damage or deformation of the dock system
- Handrails shall be designed for a 200-pound load applied in any direction and at any point along the length of the handrail
- Flotation for boat docks shall be designed to support the dead load plus 30 PSF live load applied to the deck area
- A uniform horizontal wind loading from any direction shall be calculated in accordance with ASCE 7-05 for exposure category "D" on all project surfaces, assuming 100% boat occupancy
- A horizontal load due to impact on the boat dock shall be the result of the largest boat normally using the lake striking the end of the finger 10 degrees (10°) off the center line of the boat dock. For purposes of calculation, the weight of the craft shall be 12 times the length squared (12L²). For analysis of impact, craft speed shall be considered moving at a speed of 3 FPS
- The system shall be designed to resist torsional forces to the extent that there shall be no more than three (3) inches of freeboard variation per 100-foot length as measured in any direction and under any combination of specified vertical and horizontal load conditions except wave action loads
- The floating structures shall be designed to resist a 400-pound vertical point load at any point on the dock without violation of the freeboard torsion design requirement
- Anchor pipes shall slide freely during water level fluctuations and design live loads
- Manufacturer and Engineer of Record must provide evidence of testing and/or proof of calculations of the specified loads lists above

Execution

I. Timeline

- Design, manufacture, delivery, and installation of the floating dock system specified above shall be completed by February 28th, 2027
- Complete a pre-installation site visit with representative from ODWC, at least two (2) weeks in advance of installation to determine water depth, proper length of anchors, and recommend any specific site preparation alterations to ensure proper floating dock system installation

II. Closeout

- Upon completion of installation, conduct a final inspection with representative from ODWC and complete any corrective work as directed

Miscellaneous Information

- There will be **no** pre-bid meeting held at the project site
- Bids must include a signed Build America, Buy America Act Certification (see attachments)
- Bidders are responsible for visiting the project site and familiarizing themselves with site conditions prior to submitting a bid
- Late bids will **not** be considered
- Questions during the bid process shall be sent by email to: Susan.Mecham@odwc.ok.gov by June 4th, 2026 by 3:00 PM Central Standard Time (CST) as the last date and time for questions.
- No questions will be taken by phone, all questions must be in writing.

- **Contract will be awarded to one vendor only. If vendor is awarded multiple ODWC projects, they must be capable of completing each project as required by contract documents.**
- Insurance: The successful bidder will be required to provide certificates of insurance for general liability, vehicles, and worker's compensation for this project general conditions immediately upon notification that they are the successful bidder. A contract will not be issued without the required proof of insurance.
- There is **NO** bid bond for this project.
- Basis of Contract: The determination of the Lowest Responsible Bidder will be made based on bid as Total Project Cost, along with the proposed time to complete the work. Failure to submit a complete bid, inclusive of affidavits and requested information, may disqualify the bidder. ODWC reserves the right to make any inquiries to insure that the lowest bidder is actually able to complete the work in a satisfactory manner.
- The contract will be issued by the Office of Management and Enterprise Services, Construction and Properties Division (OMES/CAP). The Contractor shall not begin work until the contract is in place and written notice to proceed has been issued by OMES/CAP. Bids are invited as stated on the solicitation cover sheet and must be returned by the date and time specified. All bids must be accompanied by the Affidavit, attached.
- Terms and conditions: As stated in the contract.
- Invoicing and Project Communication: All work-execution related communications must go through the Agency Representative. Project invoices shall be sent to the Agency Representative at the following address and attention:

Oklahoma Department of Wildlife Conservation
 Nathan Copeland
 1801 N. Lincoln Blvd. – Fish Division
 Oklahoma City, OK 73105
 Email: nathan.copeland@odwc.ok.gov

Execution

Scheduling: Provide Agency Representative with proposed work schedule prior to beginning work.

Travel: Operator will not be compensated for travel to and from work sites.

Closeout: At completion of the work, conduct final inspection with Agency Representative. Complete any corrective work as directed.

Bid Checklist

- Signed Build America, Buy America Act Certification
- Design drawings of the floating dock system, anchorage, and dock abutment
- Materials lists for the floating dock system and anchorage
- Reference projects with contact information and photos

OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION (ODWC)

SUPPLEMENT TO GENERAL CONDITIONS OF THE CONTRACT: [General Conditions of the Contract](#)

DOMESTIC PROCUREMENT REQUIREMENTS FOR INFRASTRUCTURE PROJECTS THAT ARE FUNDED IN WHOLE OR IN PART BY FEDERAL FUNDS UNDER BUY AMERICA BUILD AMERICA

As required by Section 70914 of the Infrastructure Investment and Jobs Act ([BUY AMERICA BUILD AMERICA ACT Pub. L. 117-58](#)) and related statutes and regulations, on or after May 14, 2022, the funds under a federal award for infrastructure projects must not be obligated unless all the iron, steel, manufactured products, and construction materials used in the project are produced in the United States, unless subject to an approved waiver. If any part of the project is funded by a federal award, then the entire project must meet the Buy America Build America provisions. This requirement is hereby expressly and formally incorporated into ODWC's *General Conditions of the Contract*, any contract that ODWC is party hereto and into all ODWC subawards under this program, including all contracts and purchase orders for work or products.

I. REQUIRED USE.

A. Steel and Iron Products:

All iron and steel used in the project must be produced in the United States. This means all manufacturing processes, from the initial melting stage through the application of coatings, must have occurred in the United States. This includes the processes of epoxy coating, galvanizing, painting, or applying any other coating that protects or enhances the value of the coated material and that are permanently incorporated into the completed project. The Contractor shall provide certification that the steel/iron is domestically produced.

B. Manufactured Projects:

All manufactured products used in the projects must be produced in the United States. This means the manufactured product was manufactured in the United States, and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation. The Contractor shall provide certification that the construction materials defined under BABA are domestically produced.

C. Construction Materials:

All construction materials used in the project must be manufactured in the United States. This means that all manufacturing processes for the construction material occurred in the United States. This includes the components of the manufactured product, which must also be mined, produced, or manufactured in the United States.

II. BIDDER/OFFEROR AND CONTRACTOR OBLIGATIONS.

A. Required Certifications:

At the outset, the Bidder or Offeror must submit a certification of assurance of compliance with BABA, attached hereto as Exhibit A. After work is completed on the project, the Contractor must

submit an additional certification to ODWC with the following information, also reflected in Exhibit B:

"I hereby certify that all construction materials furnished to the Oklahoma Department of Wildlife Conservation for the construction of the above referenced project that are required to be compliant with the Build America Buy America Act have been produced in the United States of America as defined by §70912 "Definitions" of the Infrastructure and Investment Jobs Act (IIJA) (Public Law 117-58 - Nov. 15, 2021). I further certify that all supporting documentation is on file and will be maintained for a period of five (5) years after project completion."

B. Assumption of Risk:

The Contractor assumes the risk of including any foreign materials that are not exempt from this requirement, including iron or steel. ODWC may request to review the Contractor's supporting documentation to verify compliance with BABA at any time. The Contractor shall provide the supporting documentation within five (5) business days of the request. The burden of proof to meet the BABA provisions rests on the Contractor. If the supporting documentation does not undeniably demonstrate to ODWC that the iron or steel, manufactured products, or construction materials identified in the Certificates of Compliance were produced in the United States of America, then such iron, steel, manufactured products or construction materials may be considered unacceptable and must be replaced by the Contractor at no cost to ODWC. The Contractor shall not anticipate that any BABA preference provisions will be waived.

C. Removal Due to Non-Compliance:

The Contractor has the obligation to remove and replace non-BABA compliant material unless a waiver is granted for the use. No claims for contract adjustment (additional time, money, or both) will be made because of the non-compliant material. The Contractor shall provide certification that all materials defined under BABA are domestically produced.

More information on BABA requirements may be found here: [BABA - Federal Financial Assistance](#).

More information on BABA requirements for projects funded directly under the DOI may be found here: [USFWS Award Terms and Conditions May 14, 2022](#) and ["Buy America" Domestic Sourcing Guidance and Waiver Process for DOI Financial Assistance Agreements | U.S. Department of the Interior](#).
