Seasonal – blinds which are constructed by a hunter permitted by the Department and at a Department approved designated location and used throughout the current hunting season. Daily – blinds constructed for use on any given day and removed at the end of the day’s hunt. Daily blinds would include boat blinds, layout blinds, panel blinds and/or any other blind constructed from natural material that is removed at the end of the day’s hunt. This Part establishes the guidelines for blind construction.

**SUBCHAPTER 24. IMPORT OF CERVIDS**

800:25-24-1. Purpose  
The purpose of this Subchapter is to establish requirements for the importation of animals or specific carcass parts from the family Cervidae that will help protect Oklahoma’s native deer and elk population from the threat of chronic wasting disease (CWD).

800:25-24-3. Requirements  
The following restrictions apply to the importation of animals in the family Cervidae.  
(1) Import authorization is suspended for animals in the family Cervidae which originate from any state or Canadian province where chronic wasting disease has been identified in free-ranging native cervids.  
(2) In cases where the source herd originates from a state or Canadian province where CWD has not been identified, import will be granted only if the source herd is a participant in a CWD surveillance and certification program which conforms to standards described in Subchapters 11 and 47 of Title 35 of the Oklahoma Administrative Code.  
(A) The following relate to the importation of live cervids into Commercial Hunting areas.  
   (1) The import of cervidae for the purpose of deposition in a Commercial Hunting area that are originating in any county or Canadian province where Chronic Wasting Disease exists in free-ranging native herds shall be prohibited, except the State Veterinarian may allow an import from a Canadian province with Chronic Wasting Disease after notification to the Oklahoma Department of Wildlife Conservation and based on a review of the following factors:  
      (a) distance of the farmed cervidae facility from the Chronic Wasting Disease area,  
      (b) existence of double fencing between the farmed cervidae facility and free-ranging native herds,  
      (c) farmed cervidae facility biosecurity measures,  
      (d) participation of the farmed cervidae facility in any Canadian Chronic Wasting Disease herd certification programs, and  
      (e) any other relevant factors,  
   (2) All other cervidae imports into Commercial Hunting areas shall only be from a source herd that is in a Chronic Wasting Disease surveillance and certification program for a minimum of five (5) years monitored and the program
meets the standards of cervidae importation into Oklahoma,

(3) import of cervidae into Commercial Hunting areas shall be accompanied by a Certificate of Veterinary Inspection and an approved Cervidae Import Permit, and

(4) import of cervidae into a Commercial Hunting area shall follow all other disease testing required by the Oklahoma Statutes or rules promulgated by the Department of Agriculture, Food, and Forestry.

(B) The following restrictions apply to the statewide importation of cervid carcasses or carcass parts

(1) No person shall import, transport, or possess any cervid carcass or part of a cervid carcass from outside the boundaries of Oklahoma. The following items are the only exceptions:

(a) Antlers or antlers attached to clean skull plate or cleaned skulls (all tissue removed);

(b) Animal quarters containing no spinal materials or meat with all parts of the spinal column removed;

(c) Cleaned teeth;

(d) Finished taxidermy products;

(e) Hides or tanned products.

SUBCHAPTER 26. SCIENTIFIC COLLECTOR PERMITS

PART 1. SCIENTIFIC PURPOSES

PART 2. AUTHORIZATION LETTERS

800:25-26-5. Purpose
Consistent with State Statute 29-3-103, the Oklahoma Wildlife Conservation Commission may enter into cooperative agreements with federal, state and local agencies regarding the study or conservation of fish and wildlife. The purpose of this section is to establish application procedures and qualification for obtaining a letter of authorization from the Director of the Oklahoma Department of Wildlife Conservation for the capture, holding and/or vouchering of fish and wildlife species for biological monitoring, conservation education, or agency-supported research purposes by government entities.

800:25-26-6. Application Process and Reporting
(a) The Director, acting on behalf of the Commission, may issue a letter of authorization to a government agency or a subdivision of a government agency including municipal, county, state or federal resource management agencies, for the capture, possession, and/vouchering of fish and wildlife for the purposes of biological monitoring, conservation education, or research funded by the Oklahoma Department of Wildlife Conservation.

(b) The following are the procedures for obtaining a letter of authorization:

(1) A request for a letter of authorization must be sent in writing to the Fisheries Division Chief or Wildlife Division Chief of the Oklahoma Department of Wildlife Conservation.

(2) The request must identify the following:

(A) the need for or purpose of the letter of authorization,

(B) the name, agency and contact information (phone number, address and email) of one or more primary points of contact to whom the letter of authorization is issued,

(C) the species and estimated numbers of individuals for which the applicant seeks authorization to capture, possess or voucher,

(D) the geographic area over which the request extends,

(E) a list or description of the methods by which fish and wildlife will be captured or taken,

(F) the names of all individuals, including the primary point of contact, who are intended to be covered under the letter of authorization,

(G) the intended final disposition of the fish and wildlife requested to be collected.

(3) Once a letter of authorization request is received, ODWC fish and wildlife biologists will conduct an internal review process. Once the request is reviewed and deemed adequate, it will be submitted for the Director's approval and signature and the approved letter of authorization will be sent to the applicant.

(4) Letters of authorization expire at the end of each calendar year, and a new request must be submitted each year that the applicant requested authorization.

(5) Within two months of the end of the calendar year, the primary point of contact is responsible for submitting a written report summarizing the activities conducted under the letter of authorization including the geographic locations where fish and wildlife were captured, the species and numbers of individuals captured, and the disposition of those animals or specimens at the end of the year. Failure to provide an annual report in a timely manner could preclude the issuance of letters of authorization in subsequent years.
800:25-26-7. Uses and Specifications
(a) A copy of the letter of authorization must be carried by each authorized individual when active in the field.
(b) Each letter of authorization will describe the extent of the activities that it covers including the geographic area and the methods of capture or take.
(c) Letter of authorization may be issued for the capture, possession and vouchering of species that cannot be permitted under a scientific collector's permit including deer, bear, elk, antelope and turkey.
(d) Letters of authorization may be issued to individuals and laboratories within government research institutions and public universities that conduct fish and wildlife research funded by the Oklahoma Department of Wildlife Conservation.
(e) A letter of authorization does not preclude the need for a federal permit. The capture, possession and vouchering of migratory birds and federally-listed threatened or endangered species requires a federal permit unless exempted under an Endangered Species Act Section 4(d) rule.
(f) A letter of authorization does not preclude the need to obtain permission from landowners to operate on private property, or the need to obtain permission from official area managers when operating on municipal, state or federal lands.

SUBCHAPTER 37. NUISANCE WILDLIFE CONTROL PROGRAM
PART 3. WILDLIFE AND FERAL HOG NUISANCE AND DEPREDATION RULES

800:25-37-16. Feral swine night shooting exemptions
The following rules detail exemptions to shoot feral swine at night under provisions of T29 4-135:
(1) Night Shooting exemptions will only be issued to the deed-holding landowner or a written designee. Only one exemption will be issued per property. The landowner or their written designee may obtain an immediate exemption to night shoot by contacting their game warden in the county in which their property is located. A game warden in an adjoining county may also be contacted to immediately issue the exemption. If the landowner or their written designee does not speak to the game warden by telephone, the landowner or their written designee may leave a voice mail message, send a text message or email to the game warden which will serve as sufficient means for an immediate exemption to shoot feral swine at night. The Wildlife Department may also create an electronic exemption issuance and notification system.
(2) If the initial contact is through the game warden, then the game warden will be responsible for following up with the requesting party to issue a night shooting exemption.
(3) Exemptions shall be valid for one year. Exemptions shall contain the landowner's name, the name of the written designee (if landowner designates someone in place of himself or herself) claiming the exemption, the person's address, and contact information, plus either a legal description or a listing of the landowner's acreage and location relative to the nearest roadways (e.g.: ½ mile west of the intersection of Hwy 177 and Tooley Rd; on the north side of the roadway; 280 acres). Persons shooting feral swine on a night exemption may not shoot from, to, on or across any public roadway. Anyone under age 18 is recommended to be immediately accompanied by an adult.
(4) Exemptions may be revoked for violations within the last three years of Title 800:25-37-16; Title 29 Section 5-411; Title 29 Section 5-203.1; or municipal law violations (night shooting in a prohibited area).
(5) During the period outside of the 16-day regular firearms deer season – and in areas where firearms deer season(s) is/are not in effect – the landowner or their written designee can allow anyone to night shoot on the landowner's property by providing written or electronic (text/email) permission. At least one person in the group must have a copy of the landowner's or written designee’s exemption (written or electronic copy). Any person night shooting during this time period is encouraged to provide some type of advance notification to the local game warden, but advanced notification is not required.
(6) During the 16-day regular firearms deer season – only the landowner or their written designee can night shoot on the property listed on their exemption, and he or she is required to provide some type of advanced notification to the local game warden. The advanced notification can be by text message, voice mail message, email, or through an electronic notification system. Family members (parents, children, grandchildren, sons-in-laws and daughters-in-laws) can assist an exemption holder. At least one person in the group must have a copy of the exemption while night shooting.
(7) Night vision equipment, including image-enhancement technology and thermal imaging technology will be allowed, as will infra-red or what are commonly called 'night scopes'. The use of a hand-held or other powerful light (firearms mounted) shall be allowed and for the purposes of night shooting feral swine, vehicle headlights and vehicle mounted headlights will be allowed. Motor-driven land conveyances to pursue or follow feral swine will be allowed.
(8) There are no firearm restrictions for night shooting feral swine.
(9) Persons controlling only feral swine shall be exempt from possessing the hunting license and Fishing and Hunting Legacy permit.
