

Report Date: 12/30/2021

Area	Waterfowl reports/Conditions
Copan	Lake level is below normal pool, duck and goose number are low but increasing with every cold front.
Deep Fork	Duck and goose numbers are very low. Rainfall is needed as units are too low to flood surrounding vegetation. Bird numbers may increase with approaching cold front.
Drummond	Duck and goose numbers are very low. There is no water in any of the wetland units due to lack of rainfall.
Ellsworth	Not flooded
Eufaula	Duck numbers remain very low. Lake level 583.64. Habitat conditions poor at current lake level. Front coming through this weekend could move some birds.
Ft. Cobb	Duck and goose numbers moderate, habitat moderate to good.
Grassy Slough	Water levels low, duck numbers low, hunting pressure high
Hackberry Flat	Reservoir approx. 2-3 feet below normal. Duck numbers low, goose numbers fair. All wetland units are DRY due to lack of rainfall. No water in any huntable wetland units.
Hugo	Duck numbers are low, but increasing
Hulah	Lake level is at normal pool, duck and goose number are low but increasing with every cold front.
Keystone	Lake level is normal but there is no flooded food. Habitat around the lake is poor. Duck numbers low, goose number low.
Love Valley	Duck numbers low, rainfall needed. Wetlands in excellent condition
McClellan-Kerr	Duck and goose numbers low. Habitat conditions poor
Mtn. Park	Duck and goose numbers low with increasing numbers in surrounding area.
Okmulgee	Duck and goose numbers are very low. Entrance 4 moist soil units have water, but the unit levels vary. Bird numbers may increase with approaching cold front.
Oologah	Lake level about 11" above normal, duck numbers low, goose numbers fair around the lake. May see an increase in numbers with incoming fronts
Packsaddle	Low numbers of ducks and geese
Red Slough	Hunting pressure high. Duck numbers low, rainfall needed.
Tishomingo	Duck numbers low, habitat conditions poor
Waurika	Duck and goose numbers on the lake are low. Fair duck numbers on the WDU. Units 90% flooded.
White Grass	Low duck numbers
Wister	Low duck numbers
Sooner Lake	Waterfowl numbers stable. Fair amount of mallards, good numbers of goldeneye, scaup, and bufflehead.
Sequoyah NWR	Contact refuge for most updated information.
